

# Treverlen Park

28 February 2019

# Petition

We, the undersigned, believe that the commitment to provide a skatepark in Treverlen Park should be honoured and ask that the Northfield Willowbrae Community Council organises a meeting to discuss this issue.

Date	Description
December 2016	Pre-application public consultation.
January - October 2017	Detailed design period.
November 2017	Planning application submitted.
March 2018	Planning application approved.
June - present	Ongoing design of certain elements based on planning feedback and stakeholder engagement.
November 2018	Value engineering required. Options developed for CEC consideration.
January – February 2019	Value engineering items progressed in consultation with Planning.
28 February 2019	Public event - latest plans presented.

- Skate park viewed favourably as an active space but noted some concern in relation to noise levels.

Proposed skate park located within the larger and denser roundel to minimise its impact on neighbouring properties, its location has been agreed by all those consulted during planning consultee meeting as being the most suitable in terms of distance to residential properties, efforts will be made with the landscape and levels to minimise its noise impact.

With regards to amenity issues arising from the skatepark, the detailed proposals for this facility have still to be developed. The design team intend to work with a steering group and specialist skate park designers to develop proposals for this area which respond to the specific requirements of end users. Any antisocial behaviour arising from the skatepark will be a matter for the police.
